ACATS Modification List for ACATS 4.0
Version 4.0E
March 19, 2015

What is this?

This is the ACATS modification list for ACATS 4.0. This document includes test corrections, test removals, and new tests for ACATS 4.0. ACATS 4.0 is the current test suite for Ada, covering the third edition of Ada, ISO/IEC 8652:2012 (usually known as "Ada 2012").

ACATS Modification List version 3.1F for ACATS 3.1 is the current list for that test suite. ACATS 3.1 should be used for testing implementations that support Amendment 1 (ISO/IEC 8652:1995/AMD 1:2007, often known as "Ada 2005"), and will continue to be maintained as necessary for the foreseeable future.

ACATS Modification List version 2.6D for ACATS 2.6 is the current list for that test suite. ACATS 2.6 should be used for testing implementations of the second edition of Ada, ISO/IEC 8652:1995 (usually known as "Ada 95"); it also will continue to be maintained as necessary for the foreseeable future.

Changes from the last list:

New test C324003 checks the example found in RM subclause 3.2.4, including the use of aspect Predicate_Failure and the evaluation order of predicates.

An error in test C433004 was corrected; this changed the required date. Similarly, an error in test BDB3A01 was corrected; this changed the required date.

New tests C552001 and C552002 test the operation of array component iterators. New tests B552001, B552A04, and B552A05 test legality rules for each kind of iterator. New tests B551001 and B551002 test legality rules for aspects Default_Iterator and Iterator_Element, respectively.

In test B730009, the completion of Priv12 at line 131 violates 7.3(10.1/3); this is corrected by adding limited to the full type declaration.

New test B730010 checks that 7.3(10.1/3) is enforced.

Corrected two errors in test B732001. Corrected two errors in CC51010. As these are new tests that were issued this quarter, these corrections do not change the required date of the test.

New test CA21002 checks that the Pure and Preelaborate aspects can be specified with a value imported from another package.

New test CC51011 was removed pending the resolution of AI12-0155-1; the operations declared in package Inner necessarily violate the freezing rule that all types in a profile that is being frozen are completely defined.

New tests CXAH001, CXAH002, and CXAH003 were missing Applicability Criteria. This only changes the header of the test; no Ada code was changed. As these are new tests that were issued this quarter, these corrections do not change the required date of the tests.

Additional items are added to Impdef to support some of these new tests.
A number of new tests had overlong lines, unintended tab characters, and other violations of ACATS test lexical rules. These have been corrected. Some of these changes caused the required dates to change. These tests include B3A1008, B3A1009, B3A2017, B457004, B480002, B438003, B640001, B732C01, B732C02, BA12017, BXAI005, BXAI006, BXAI007, BXAI008, BXAI009, BXAI010, C391003, C3A1003, C3A1004, C431002, C433002, C433003, C433005, C550001, C640002, C732001, C732A00, C732C00, C760015, CB30002, CDB3A01, CXA5016, CXAC008, F732A00, F732C00, and FDB3A00.

A number of existing, older tests had overlong lines, unintended tab characters, and other violations of ACATS test lexical rules. These have been corrected. Test affected are BDD2004, BDD2005, C540002, C552A01, C552A02, CC30003, CC30004, CD30006, and CD30007.

New tests posted between January 1, 2015 and March 31, 2015 will become required for conformity assessments on October 1, 2015. New tests posted between October 1, 2014 and December 31, 2014 will become required for conformity assessments on July 1, 2015. New tests posted between July 1, 2014 and September 30, 2014 will become required for conformity assessments on April 1, 2015. All tests posted to modification lists for other versions of the ACATS are included in ACATS 4.0 if appropriate and thus are required for conformity assessment using ACATS 4.0 The effective dates of tests are marked in the lists.

Questions about this document? Contact the ACAA Technical Agent at agent@ada-auth.org.

2015 Corrigendum:

With ACATS Modification List 4.0B, we have started including tests for corrections (including new features) in the upcoming 2015 Corrigendum. Most of these corrections have already been approved by WG 9, and those that haven't been are expected to be approved at their next meeting. All of these changes are technically corrections to Ada 2012; as such we will assume all such corrections are implemented for Ada 2012 compilers.

Implementers can request grading modifications for any tests containing 2015 Corrigendum changes until the Corrigendum is approved as a whole by WG 9 (expected at their late June 2015 meeting). Note that most such tests will not be required until after that meeting anyway, as new tests have a six month review period before being required.

Notice:

The ACAA has created and maintains the Ada Conformity Assessment Test Suite for the purpose of conformity assessments conducted in accordance with the International Standard ISO/IEC 18009 - Ada: Conformity assessment of a language processor. This test suite should not be used to make claims of conformance unless used in accordance with ISO/IEC 18009 and any applicable ACAA procedures.

List explanation:

Test numbers given are for the basic test. Categories are “Withdrawn” (the test should not be processed for Ada conformity assessments); “Allowed Modification” (either the original test or the modified one should be processed for Ada conformity assessments); “Modified” (the modified test must be processed for Ada conformity assessments); “Pending New” (the test does not need to be processed for Ada conformity assessments, but will be added in the future); “New” (the test is processed for Ada conformity assessments).

ACATS version labels are provided with all new and modified tests. Use this label to retrieve the test from the ACATS VCS. See “How to get new and modified tests”.
In citations, line numbers are given relative to the start of a test file in the format of '@<line#,line#,...>'; if a test program comprises more than one file, then the particular file will be indicated by "fn", where "n" is the test-program name's file-designator numeral. E.g., "$B38103E : @f1-31,..." denotes test file $b38103e1.ada. In cases where there are two or more rationales for different errors in a test program, these different rationales with their respective line citations are listed on separate lines. References to the Ada standards are given in the format:

<section|chapter>.<clause> [.<subclause>]:<paragraph>

These references are to the Ada standard as available at http://www.adaic.org/resources/add-contentstandards/12rm/html/RM-TOC.html.

Main list:

====== Core Language ======

Name Category Version label (effective date; old version label) Short description.

C324003 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   Check that predicates are checked in the correct order and that the specified exception is raised.

B393011 [Pending New] New VCS Label: A4_0D
   Required after 2015-10-01
   Check that an abstract routine of an abstract partial view overridden by a non-abstract routine in the private part requires overriding when it is inherited if the private part is not visible where it is inherited.

C391003 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0D] Check that a type extension can be declared in a more nested scope than its parent type, and that overridden subprograms of that extension can be dispatched to.
   [VCS Label A4_0E] Eliminate an overlong line.

C3A1003 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0D] Check that a dereference of an access-to-tagged-incomplete type can be passed as a parameter.
   [VCS Label A4_0E] Eliminated overlong lines.

C3A1004 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0D] Check that a parameter of a tagged incomplete type can be passed as a parameter.
   [VCS Label A4_0E] Eliminated overlong lines.

B3A1008 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0D] Check that a dereference of an access-to-incomplete type cannot be used as a prefix.
   [VCS Label A4_0E] Eliminated overlong lines.
B3A1009 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check that a dereference of an access-to-incomplete view cannot be used as a prefix. Check that a parameter of an incomplete view cannot be used as a prefix.
[VCS Label A4_0E] Eliminated overlong lines.

B3A1010 [Pending New] New VCS Label: A4_0D
Required after 2015-10-01
Check that a dereference of an access-to-formal incomplete type cannot be used as a prefix. Check that a parameter of a tagged form incomplete type cannot be used as a prefix.

C3A2004 [Pending New] New VCS Label: A4_0C
Required after 2015-07-01
Check that the type of the prefix of 'Access is used to resolve the expected type of the use of the attribute.

B3A2017 [Pending New] New VCS Label: A4_0C
Required after 2015-07-01
[VCS Label A4_0C] Check P'Access is not allowed in a generic body if P is declared in the generic (including in the parent of a child or in a formal package) and the access type is a formal type or outside of the generic.
[VCS Label A4_0E] Eliminated overlong lines.

C431002 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0B] Check that a component association of others => <> in a record or extension aggregate may have any number of associated components, including none. (Case 2: Null records and extensions.)
[VCS Label A4_0E] Eliminated overlong line.

B431005 [Pending New] New VCS Label: A4_0B
Required after 2015-07-01
Check that a component association with an expression in a record or extension aggregate that have more than one associated component is illegal if the expression is illegal for any one of the associated components.

B431006 [Pending New] New VCS Label: A4_0C
Required after 2015-07-01
Check that if a variant part is not nested in an unselected variant, the value of the governing discriminant of a variant in a record aggregate cannot be non-static.

C433002 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0B] Check that no array components can be outside of the index subtype for an array aggregate, even when the components are specified by <>. 
[VCS Label A4_0E] Eliminated overlong lines.

C433003 [Pending New] New VCS Label: A4_0B
Required after 2015-07-01
[VCS Label A4_0B] Check that for each association with a box in an array aggregate, the component is initialized by default (scalar types with Default_Values).
[VCS Label A4_0E] Eliminated overlong lines.
C433004 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0B] Check that for each association with a box in
an array aggregate, the component is initialized by default
(array types with Default_Component_Values).
[VCS Label A4_0E] Object O6 #136 expects the wrong result.
Eliminated overlong lines.

C433005 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0B] Check that the constraint of the constrained
array subtype of a function return is used to determine the
bounds of an array aggregate with an others choice in the
expression of a return statement.
[VCS Label A4_0E] Eliminated overlong lines.

B457002 [Pending New] New VCS Label: A4_0D
Required after 2015-10-01
Check that 'others' must be last and alone in a case expression.

B457003 [Pending New] New VCS Label: A4_0D
Required after 2015-10-01
Check that 'else' cannot be omitted for an if expression if the
type of the expression is not a boolean type.

B457004 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check that case choice coverage and staticness
are enforced for case expressions.
[VCS Label A4_0E] Eliminated overlong lines.

B457005 [Pending New] New VCS Label: A4_0D
Required after 2015-10-01
Check that all or none of the dependent expressions of a
conditional expression can be dynamically tagged if the type of
the expression is a specific tagged type.

B480002 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check that an initialized allocator for an
access type with a class-wide designated type does not create an
object whose type is more local than the access type.
[VCS Label A4_0E] Eliminated overlong lines and tab characters.

B480003 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check that an uninitialized allocator for an
access type with a class-wide designated type does not create an
object whose type is more local than the access type.
[VCS Label A4_0E] Eliminated overlong lines and tab characters.

C540002 [Allowed Modification] New VCS Label: A4_0E Org VCS Label: A4_0
Required after 2015-07-01
Eliminated overlong lines.

C550001 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0C] Check that for loops iterate properly over
subtypes with static predicates.
[VCS Label A4_0E] Eliminated overlong lines.
B551001 [Pending New] New VCS Label: A4_0E
    Required after 2015-10-01
    Check legality rules for aspect DefaultIterator.

B551002 [Pending New] New VCS Label: A4_0E
    Required after 2015-10-01
    Check legality rules for aspect IteratorElement.

B552001 [Pending New] New VCS Label: A4_0E
    Required after 2015-10-01
    Check legality rules for array component iterators from the 2015 Corrigendum.

C552001 [Pending New] New VCS Label: A4_0E
    Required after 2015-10-01
    Check correct operation of array component iterators.

C552002 [Pending New] New VCS Label: A4_0E
    Required after 2015-10-01
    Check correct operation of array component iterators where the array has convention Fortran.

C552A01 [Allowed Modification] New VCS Label: A4_0E Org VCS Label: A4_0
    Required after 2015-07-01
    Eliminated violations of ACATS lexical rules.

C552A02 [Allowed Modification] New VCS Label: A4_0E Org VCS Label: A4_0
    Required after 2015-07-01
    Eliminated violations of ACATS lexical rules.

B552A04 [Pending New] New VCS Label: A4_0E
    Required after 2015-10-01
    Check legality rules for container element iterators (most of the checked rules are from the 2015 Corrigendum).

B552A05 [Pending New] New VCS Label: A4_0E
    Required after 2015-10-01
    Check legality rules for generalized iterators from the 2015 Corrigendum.

B640001 [Pending New] New VCS Label: A4_0E
    Required after 2015-10-01
    [VCS Label A4_0C] Check that abstract nondispatching operations do not participate in resolution.
    [VCS Label A4_0E] Eliminated overlong lines and tab characters.

C640002 [Pending New] New VCS Label: A4_0E
    Required after 2015-10-01
    [VCS Label A4_0C] Check that an abstract nondispatching operator provides a way to eliminate an unwanted predefined operator.
    [VCS Label A4_0E] Eliminate overlong lines.

B650005 [Pending New] New VCS Label: A4_0C
    Required after 2015-07-01
    Check that the accessibility level of the return subtype indication of an extended return statement cannot be statically deeper than that of the function result if that result is class-wide.

B650006 [Pending New] New VCS Label: A4_0C
    Required after 2015-07-01
Check that an extended return statement with a constant return object cannot omit the initializing expression.

B730009 [Allowed Modification] New VCS Label: A4_0E Org VCS Label: A4_0
Required after 2015-07-01
Completion of Privl2 @131 violates 7.3(10.1/3).

B730010 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
Check 7.3(10.1/3).

B732001 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check various resolution and legality rules for aspect Type_Invariant.
[VCS Label A4_0E] Length @80 should have return type Natural.
Changed Is_Valid to Is_Clean @95, 97, 146 so that the inherited routine doesn't come into play.

C732001 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check that assertion checks are made after assignments to and calls with actuals of appropriate view conversions.
[VCS Label A4_0E] Eliminated overlong lines.

C732A01 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check that the failure of a Type_Invariant check raises Assertion_Error (constrained array).
[VCS Label A4_0E] Eliminated overlong lines.

B732C01 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check that the aspect Type_Invariant can only be specified on private types, private extensions, and full types that complete one of the others.
[VCS Label A4_0E] Eliminate overlong lines.

C732C01 [Pending New] New VCS Label: A4_0D
Required after 2015-10-01
[VCS Label A4_0D] Check that the failure of a Type_Invariant check raises Assertion_Error (tagged record).
[VCS Label A4_0E] Eliminated overlong lines.

B732C02 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check that the aspect Type_Invariant'Class can only be specified on private types, private extensions, and interfaces.
[VCS Label A4_0E] Eliminate overlong lines.

C760014 [Pending New] New VCS Label: A4_0A
Required after 2015-04-01
Check that Ada.Finalization is declared pure.

C760015 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0D] Check that a controlled type can be declared within a subprogram.
[VCS Label A4_0E] Eliminate overlong lines.
BA12017 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0C] Check that a limited with clause is not allowed on a descendant of the named package.
[VCS Label A4_0E] Eliminated overlong line.

BA15003 [Pending New] New VCS Label: A4_0C
Required after 2015-07-01
Check that a library unit pragma must apply to a library unit.

CA21002 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
Check that Pure and Freelaborate aspects can be specified with an object declared in another package.

CB30001 [Pending New] New VCS Label: A4_0B
Required after 2015-07-01
Check that the optional message parameter is supported in a raise statement, and that the message can be retrieved with Exception_Message.

CB30002 [Pending New] New VCS Label: A4_0E
Required after 2015-10-01
[VCS Label A4_0B] Check that the optional message parameter is supported in a raise expression, and that the message can be retrieved with Exception_Message.
[VCS Label A4_0E] Eliminated overlong lines and tab characters.

CC30003 [Allowed Modification] New VCS Label: A4_0E Org VCS Label: A4_0
Required after 2015-07-01
Eliminated overlong lines.

CC30004 [Allowed Modification] New VCS Label: A4_0E Org VCS Label: A4_0
Required after 2015-07-01
Eliminated overlong lines and tab characters.

CC51010 [Pending New] New VCS Label: A4_0D
Required after 2015-10-01
[VCS Label A4_0D] Check that a generic unit with a tagged incomplete formal type can be instantiated with an incomplete view of a type from a limited withed package, and that operations in the instance can be used normally when the full view of the type is visible.
[VCS Label A4_0E] Added constructor function to generic, as Elem'Unchecked Access is illegal when Elem is incomplete. Moved body of CC51010_2 so it compiles after another package on which it depends.

BC60001 [Pending New] New VCS Label: A4_0C
Required after 2015-07-01
Test rules associated with formal subprogram defaults of null.

CD30006 [Allowed Modification] New VCS Label: A4_0E Org VCS Label: A4_0
Required after 2015-07-01
Eliminated overlong lines and tab characters.

CD30007 [Allowed Modification] New VCS Label: A4_0E Org VCS Label: A4_0
Required after 2015-07-01
Eliminated overlong lines.
BDB3A01 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0B] Test resolution and legality rules for
   pragma and aspect Default_Storage_Pool.
   [VCS Label A4_0E] Declaration of Pool @53 is missing the TC_Id
discriminant.

CDB3A01 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0B] Test that aspect Default_Storage_Pool changes
   the default storage pool for a generic instantiation.
   [VCS Label A4_0E] Eliminated overlong line.

   Required after 2015-07-01
   [VCS Label A4_0B] Error @229 is legal by AI12-0121-1.
   [VCS Label A4_0E] Eliminated overlong lines.

   Required after 2015-07-01
   [VCS Label A4_0B] Replaced test cases waiting on AI12-0106-1 (now
   approved) and made changes required by AI12-0121-1.
   [VCS Label A4_0E] Eliminated overlong lines.

CXA5016 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0C] Check operation of attribute Machine_Rounding.
   [VCS Label A4_0E] Eliminated overlong lines.

CXA021 [Pending New] New VCS Label: A4_0C
   Required after 2015-07-01
   Check file operations of Text_IO.Bounded_IO.

CXA022 [Pending New] New VCS Label: A4_0C
   Required after 2015-07-01
   Check file operations of Text_IO.Unbounded_IO.

CXAB002 [Pending New] New VCS Label: A4_0C
   Required after 2015-07-01
   Check file operations of Wide_Text_IO.Wide_Bounded_IO.

CXAB003 [Pending New] New VCS Label: A4_0C
   Required after 2015-07-01
   Check file operations of Wide_Wide_Text_IO.Wide_Bounded_IO.

CXAB004 [Pending New] New VCS Label: A4_0C
   Required after 2015-07-01
   Check file operations of Wide_Text_IO.Wide_Unbounded_IO.

CXAB005 [Pending New] New VCS Label: A4_0C
   Required after 2015-07-01
   Check file operations of Wide_Wide_Text_IO.Wide_Wide_Unbounded_IO.

CXAC008 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0C] Check that Stream_IO files opened with mode
   Out_File are not truncated by Close or Reset.
   [VCS Label A4_0D] Corrected required file size in subtest 8, and
   various failure messages.
   [VCS Label A4_0E] Eliminated overlong lines.
Check that Ada.Directories can be used to create and delete directories.

Check that Ada.Directories.Hierarchical_File_Names exists and works as expected.

Test that package Environment_Variables can be used to read environment variables.

Test that package Environment_Variables can be used to modify environment variables.

Test the two parameter Value in package Environment_Variables.

Test that package Hashed_Maps does not allow reverse iterators.

Test that package Hashed_Sets does not allow reverse iterators.

Test that package Bounded_Hashed_Maps does not allow reverse iterators.

Test that package Bounded_Hashed_Sets does not allow reverse iterators.

Test that package Hashed_Sets does not allow direct writing of set elements.

Test that package Ordered_Sets does not allow direct writing of set elements.

Test that package Bounded_Hashed_Sets does not allow
allow direct writing of set elements.

[VCS Label A4_0E] Eliminated overlong lines.

BXAI008 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0B] Test that package Bounded_Ordered_Sets does not allow direct writing of set elements.
   [VCS Label A4_0E] Eliminated overlong lines.

BXIA01 [Pending New] New VCS Label: A4_0B
   Required after 2015-07-01
   Test that package Indefinite_Hashed_Maps does not allow reverse iterators.

BXIA02 [Pending New] New VCS Label: A4_0B
   Required after 2015-07-01
   Test that package Indefinite_Hashed_Set does not allow reverse iterators.

BXIA03 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0B] Test that package Indefinite_Hashed_Sets does not allow direct writing of set elements.
   [VCS Label A4_0E] Eliminated overlong lines.

BXIA04 [Pending New] New VCS Label: A4_0E
   Required after 2015-10-01
   [VCS Label A4_0B] Test that package Indefinite_Ordered_Sets does not allow direct writing of set elements.
   [VCS Label A4_0E] Eliminated overlong lines.

CXAI027 [Allowed Modification] New VCS Label: A4_0B Org VCS Label: A4_0
   Required after 2015-04-01
   Corrected the name of the package that is reported as being tested.

How to get new and modified tests:

The official home of the ACATS test suite is the ACAA web site. The site can be accessed at www.ada-auth.org.

The complete set of official new and modified tests are available in the Mod_4_0E.Zip and Tar files on the ACAA web site.

Individual new and modified tests can be retrieved from the ACATS VCS. Simply navigate to the appropriate directory (folder), and select the test you want. Select the revision you want (usually the most recent) and it will be retrieved for you. Tests are stored in directories that correspond to the test’s prefix. For instance, the test CD92001.A will be found in the CD directory. You can also browse the differences between versions of a test. [In case of a conflict, the files in the ACATS VCS should be considered the 'official' versions.]

If you cannot get the files from the official site or you cannot get the files in a format appropriate for your processor, please contact your ACAL.

The baseline ACATS 4.0 is available in various formats on the ACAA web site.
